Art Unit: 1712

Claims 5, 6 and 8-12 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected inventions, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on December 5, 2005.

There is no response to the election of species portion of the restriction requirement mailed November 3, 2005. Page 4 necessitates the election of a particular species of epoxy resin and the presence or absence of the thermally-conductive filler of claim 7 wherein a species is identified if elected.

The reply to this requirement to be complete must include an election of the species of epoxy resin and thermally-conductive filler if present to be examined even though the requirement be traversed (37 CFR 1.143).

The election filed on December 5, 2005 is not fully responsive to the restriction and election of species because of the lack of elections of a particular species of epoxy resin and thermally-conductive filler, if present. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment.

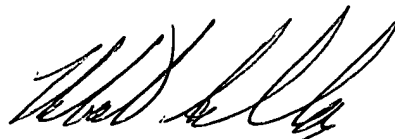

EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
